

ED: erectile dysfunction

Jonathan Clogstoun-Willmott | November 21, 2021

Please read this before continuing! This flowchart is a guide and is not definitive! Many people have a combination of syndromes (the boxes across the bottom of the chart) and deciding which is the most important and where to start treatment takes experience. Also, some words (eg impotence, depression) need explaining - see text on our website's page on this topic. Note: this flowchart does not include syndromes arising from 'excess' factors like Damp and Heat, or Stasis of Jing and Phlegm. Finally, I do not guarantee that there are no errors in this flowchart! ©Acupuncture-Points.org 2021
